at CSM 2009  
Brisbane

# you don't build a power plant for your electricity, so why build a datacentre for PACS?

CIMAAS is Clinical Image Management As A Service  
and it works similar to providing a utility,  
such as Electricity.  
You just switch on!

- 100% web based
- Pay per study fee
- Uses existing IT infrastructure
- Radiologist workflow

RADIOLOGIST BENEFITS	CIMAAS	PACS
No risk or capital outlay	✓	X
Rapid setup and "Go Live"	✓	X
Complete end to end solution	✓	X
Universal Worklist	✓	X
Web Based Access with NO VPN's	✓	X
Radiologist and physician collaboration	✓	X
Scalability and seamless growth	✓	X
Clinician convenience tools	✓	X

"CIMAAS for remote teleradiology reporting allowed me to set up the service quickly using standard computer equipment, existing cable broadband and with a no start up cost".
